OUR MISSION

Wounded Warrior Homes Inc. is a nonprofit organization committed to helping combat wounded service members diagnosed with Traumatic Brain Injury, by providing transitional housing.

A home is the simplest, yet most essential item in our lives. It is a comfort and a hideaway at the end of a long day. A place to call your own. A sign of independence.

But for the men and women who serve our country that are inflicted with a Traumatic Brain Injury the independence we take so easily for granted is just outside of their fingertips.

By providing homes for these brave men and women we can help them begin a new life once out of the hospital programs and nursing homes. They can then afford to stay close to the doctors and health facilities they need to continue their treatment and better their lives.

One of the greatest needs for our returning service men and women is going to be transitional housing.

Our vets get to a point when they are finished with in-patient rehab, but they are not ready to live independently.

**Wounded Warrior Homes
fills that need.**
